PROFESSIONAL SUMMARY

B.Tech graduate in Electrical and Electronics Engineering from Sri Venkateswara University (2026), currently working as a Programmer Intern at Business Data AI. Built production-ready full-stack applications, including an AI-powered women safety platform and a glassmorphic e-commerce application. Skilled in React.js, FastAPI, Python, Next.js, MongoDB, PostgreSQL, and real-time web application development using Socket.IO. Passionate about writing clean, scalable code and delivering real-world solutions.

WORK EXPERIENCE

Programmer Intern • Business Data AI

March 2026 – Present

- Developed 10+ Excel Add-In features for a React-based SaaS application, enabling spreadsheet editing, version control, and workflow automation.
- Integrated PostgreSQL with 1000+ database tables, supporting data retrieval, joins, hierarchical views, and spreadsheet synchronization.
- Tested and validated 300+ UI components, workflows, and business features, identifying functional issues to improve software quality.
- Collaborated in Agile development using Git and GitHub, contributing through daily stand-ups, code reviews, and version control.

Data Science Intern • Nyeras Edu-Tech And Innovations Pvt. Ltd.

Jul 2025 – Sep 2025

- Performed EDA on 3 real-world datasets using Python (Pandas, NumPy, Matplotlib, Seaborn); documented findings as structured reports and earned a certificate for outstanding performance.

PROJECTS

SheShield — AI-Powered Women Safety App

React.js, FastAPI, MongoDB Atlas, Socket.IO, Twilio API, Google Gemini AI

- Developed a full-stack real-time women safety web application with one-tap and voice-activated SOS, live GPS tracking, and automated SMS/Voice alerts to emergency contacts using Twilio API.
- Integrated Google Gemini AI chatbot for instant safety advice, legal rights info, and self-defense tips; built anonymous incident reporting with media uploads and a community safety feed.
- Built an interactive safety map using Leaflet and OpenStreetMap with safe-route navigation, nearby emergency services, and real-time SOS alerts powered by Socket.IO.
- Built hands-free SOS using Web Speech API; secured with JWT + Bcrypt; backend powered by Python FastAPI with async Socket.IO broadcasting. [\[Live Demo\]](#) [\[GitHub\]](#)

LuckyMart — E-Commerce Platform

Next.js, TypeScript, Prisma, Supabase, Zustand, TanStack Query

- Developed full-stack e-commerce platform using Next.js, TypeScript, Bootstrap, Zustand, Prisma ORM, and Supabase.
- Built responsive Glassmorphism UI with Bootstrap and Framer Motion, featuring product catalog, cart, checkout, and order tracking.
- Developed REST APIs for checkout with Credit Card and UPI payment validation using Luhn algorithm.
- Designed relational database with Prisma ORM, optimizing product, gallery, and cart data storage using JSON. [\[Live Demo\]](#) [\[GitHub\]](#)

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, SQL

Frontend: React.js, Next.js, HTML5, CSS3, Bootstrap, Tailwind CSS, Framer Motion, Leaflet

Backend: FastAPI, Node.js, Express.js, REST APIs

Databases: PostgreSQL, MongoDB, Prisma ORM

Tools: Git, GitHub, VS Code, Visual Studio, Excel Add-In Development (VSTO)

APIs & Technologies: Twilio API, Google Gemini API, Socket.IO, JWT, Web Speech API, Geolocation API, OpenStreetMap

EDUCATION

B.Tech – Electrical & Electronics Engineering

2022 – 2026

Sri Venkateswara University, Tirupati | CGPA: 6.5/10

Intermediate (MPC)

2020 – 2022

Rayalaseema Junior College, Sri Kalahasti | GPA: 7.29/10

SSC – Class X

2016 – 2020

Z.P. High School, Anjuru | GPA: 9.8/10

CERTIFICATIONS & ACHIEVEMENTS

- AI Foundations Associate — Oracle
- Excel Data Analysis — IBM (via edX)
- Certificate of Excellence, Student Ambassador — Alcheringa, IIT Guwahati
