PROFESSIONAL SUMMARY

B.Tech graduate in Electrical and Electronics Engineering from Sri Venkateswara University (2026), currently working as an Associate Programmer at Business Data AI (promoted from Intern). Experienced in frontend development, backend services, REST APIs, database integration, business logic, third-party API integration, and real-time features. Built 3 production-deployed full-stack applications across business productivity, personal safety, and e-commerce domains.

WORK EXPERIENCE

Associate Programmer • Business Data AI

Sep 2026 – Present

Promoted from Programmer Intern based on consistent performance and technical contributions.

- Contribute to development and enhancement of a unified SaaS application, implementing features across frontend, backend, API, and database layers.
- Develop responsive and reusable React.js and TypeScript components for multiple application modules and business workflows.
- Implement business logic, API integrations, validation, and database operations to support end-to-end application functionality.
- Debug issues, implement enhancements, and deliver production-ready features across the full application stack.

Programmer Intern • Business Data AI

Mar 2026 – Aug 2026

- Developed 10+ Excel Add-In features for the company's unified SaaS application, supporting spreadsheet editing, version control, and workflow automation.
- Worked with PostgreSQL and 1,000+ database tables, implementing data retrieval, joins, hierarchical views, and spreadsheet synchronization.
- Tested and debugged 300+ UI components and application workflows, identifying and resolving functional issues across the application.
- Collaborated using Git/GitHub and Agile development practices across feature implementation, testing, debugging, and code reviews.

PROJECTS

VyapaarMitra — Privacy-First Business Toolkit

React.js, Next.js, TypeScript, Tailwind CSS, Zustand, Framer Motion

- Built a browser-based business productivity platform for freelancers, shop owners, and small businesses — invoices, receipts, quotations, business cards, payment QR codes, and digital stamps.
- Developed real-time document preview and PDF generation using html2canvas and jsPDF, enabling professional A4 document creation directly in the browser.
- Implemented GST, CGST, SGST, IGST, discounts, profit margins, inclusive/exclusive tax, and multi-currency calculation logic.
- Designed privacy-first client-side architecture — all data stored locally, no backend or account required. [\[Live Demo\]](#) [\[GitHub\]](#)

SheShield — AI-Powered Personal Safety Platform

React.js, FastAPI, Python, MongoDB Atlas, Socket.IO, Twilio API, Google Gemini AI

- Implemented a one-tap emergency response workflow using geolocation, Twilio SMS, and voice calls to alert trusted contacts.
- Developed an AI-powered Safety Assistant using Google Gemini API and a Fake Call system with simulated ringing, audio, and conversational prompts.
- Implemented real-time community alerts, location-based incident reporting, and safe-route navigation using Socket.IO, Leaflet, and OpenStreetMap. [\[Live Demo\]](#) [\[GitHub\]](#)

LuckyMart — E-Commerce Platform

Next.js, TypeScript, Prisma ORM, Zustand, TanStack Query, Framer Motion

- Built full-stack e-commerce SPA with 7 application views using Next.js, TypeScript, Prisma ORM, and Supabase with Zustand-controlled routing eliminating page reloads.
- Developed Glassmorphism UI with Framer Motion, REST APIs with Luhn card validation, UPI parsing, and order persistence to Supabase PostgreSQL. [\[Live Demo\]](#) [\[GitHub\]](#)

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, SQL

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Framer Motion, Leaflet, Zustand, TanStack Query

Backend: FastAPI, Node.js, Express.js, REST APIs

Databases & ORM: PostgreSQL, MongoDB, Prisma ORM

APIs & Technologies: Twilio API, Google Gemini API, Socket.IO, JWT, Web Speech API, Geolocation API, OpenStreetMap

Tools & Other: Git, GitHub, VS Code, Visual Studio, Excel Add-In (VSTO), PDF Generation, Client-Side Storage

EDUCATION

B.Tech – Electrical & Electronics Engineering

2022 – 2026

Sri Venkateswara University, Tirupati | CGPA: 6.5/10

Intermediate (MPC)

2020 – 2022

Rayalaseema Junior College, Sri Kalahasti | GPA: 7.29/10

SSC – Class X

2016 – 2020

Z.P. High School, Anjuru | GPA: 9.8/10

CERTIFICATIONS & ACHIEVEMENTS

- AI Foundations Associate — Oracle
- Excel Data Analysis — IBM (via edX)
- Certificate of Excellence, Student Ambassador — Alcheringa, IIT Guwahati
